

EFFECTIVE METHODS For Cleaning Vinyl Film

Today, vinyl is part of our everyday lives. Used in awnings, signs, furniture, tents, and more, the benefits to vinyl are numerous. Understanding how to care for and clean vinyl film is the first step in ensuring that you not only enjoy your PVC product but also help make it last.

HERE ARE A FEW TIPS TO CONSIDER WHEN CLEANING VINYL FILM:

Don't forget to first test an inconspicuous spot for vinyl safety.

First, wipe off with mild, soapy water.

For sterilizing, use a diluted bleach solution or rubbing alcohol.

Vinyl film is easy to clean.

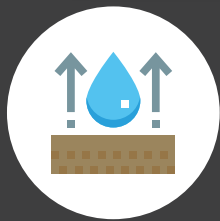

Avoid organic solvent-based products.

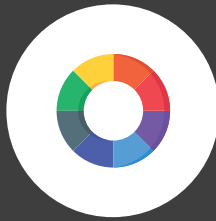

Always wipe vinyl products dry before storing.

VINYL WILL LIKELY REMAIN USEFUL DUE TO ITS POSITIVE QUALITIES:

The surface is resistant to moisture and humidity.

The product and color choices are diverse.

The material is strong and durable.
